Subject: Daily report for Sunday 7/22 Portland Harbor Pre-RD Investigation - sediment coring on the Methow

Sean and Davis,

Attached is the daily report for the Sunday 7/22, which included sediment coring on the Methow. We have oversight staff covering the sediment coring and core processing warehouse all week and DEQ will be out on one of the sediment coring vessels on Thursday. We will also be observing on the fish tracking radio downloads /maintenance starting tomorrow. Please contact me if you have any questions.
